Wellington. From the Daily Mail.

Saturday morning there appeared in the city a man who gave his name as H. D. Flint of Newton, and now Mr. Flint is wanted for riding out of town on a bicycle that belonged to another man. Flint went to the firm of A. Fetters & Son early Saturday morning and rented a wheel to take a spin about town. During the day he hired the wheel three imes, the last time being about 4:40 in the afternoon. This time he said he would not return till about 7:30 in the evening. But he has not returned yet Engineer W. H. Danenburg left for Glazier Hill, Texas, this morning, to run the pusher engine during the present revival of the live stock traffic on the

Topeka, Kan., June 5.—A summanized report from correspondents of the Kansas Board of Agriculture in nearly every township in the state is made public today, giving conditions of growing crops on May 1.

Unusual and almost uninterrupted cool weather, with abundant seasonable rainfall over much of the state, has been excellent for wheat, and its general condition of 31 an advance of 1 points over that at date for wheat, and its general condition of \$3 is an advance of 3 points over that at date of the last report, April 29. From a very few localities of least rainfall some old-crop chinch bugs are reported, but not yet doing much in material damage or propagation. In Kansas chinch bug circles the season thus far has been one of disceuraging depression, while the wheat has continued to prosper. The same weather, so congenial to wheat, has, however, held back the corn, and while the stand prosper.
